projects undertaken:

- Total responsibility for various prestigious Interiors and Building projects over a period of 8 years in the Middle East (UAE, Qatar and Bahrain), and also with 27 years of multi disciplined iconic construction projects turnkey delivery in South Africa in an executive and senior management role.

Profile:

Jorge is a CEO with approximately 36 years of construction experience, in varying disciplines of construction activity, specifically in Turnkey commercial Interior Fit Out and Building projects, but also has extensive experience in Tunneling, Roads & Earthworks, as well as specialist Civil Construction projects including Sliding, Dams, Mining and Bridges, as well as Airport Terminal and Runway construction. Prior to joining Al Tayer Stocks, serving 17 continuous and very successful years as an operations executive in a senior executive management and equity shareholding role, with a premium 'AAA' grade privately owned leading building company in South Africa called Tiber Bonvec Construction (Pty) Ltd, serving originally as Contracts Manager, also as an Alternate, then Operations Director and member of the Tiber Board of Directors.

He leads by example, is an actively involved mentor, a team player who is passionate about construction in general but specifically the Al Tayer Stocks business and its recent success and future opportunities. Through his leadership and influence, along with a very dedicated management team appointed by and reporting to him, he continues to enhance its capacity, growth and success since joining the business in 2008.

As the CEO of the Al Tayer Stocks business, he is accountable and responsible for the performance of the business in the Middle East region, as well as the various business units within the region, including the overall management of financial and execution of all the company's projects. As the CEO he is part of and reports directly to, the Al Tayer Stocks Board of Directors, (made up of Al Tayer Group and Stefanutti Stocks' Shareholder's appointed members). He is based in and operates out of the main head office in Dubai, but also manages the regional offices in Sharjah and Abu Dhabi, as well as the international offices in Qatar and Bahrain with overall responsibility for the operations and commercial aspects of the business, ensuring compliancy of the company policies, ethics as well as QA/QC, ISO 9001:2008 certified standards and all Health & Safety aspects. OSHAS 18001:2007 also ISO 14001:2004 Environmental.
